

## F164M Mister Fan

Designed for rehab, the F164M is a 16" single-speed electric fan with three built-in misting nozzles on the discharge side of the fan. As powerful as the Super Vac P164S Smoke Ejector, this fan can double as a smoke ejector.

### Features

- 1 (3) **Built-In Misting Nozzles:** Only requires 2 gallons of water per hour via garden hose or auxillary line; design reduces ambient air stream by 30° F; nozzle made of brass, prevents rust
- 2 **Patented 4-Tip Recurved Aluminum Blade:** Creates a tight spiral of air to eject smoke and fumes away from the building; aluminum holds up better than plastic in high heat
- 3 **Precision-Balanced Blade:** Maximizes output
