

DOOR BAR

Features:

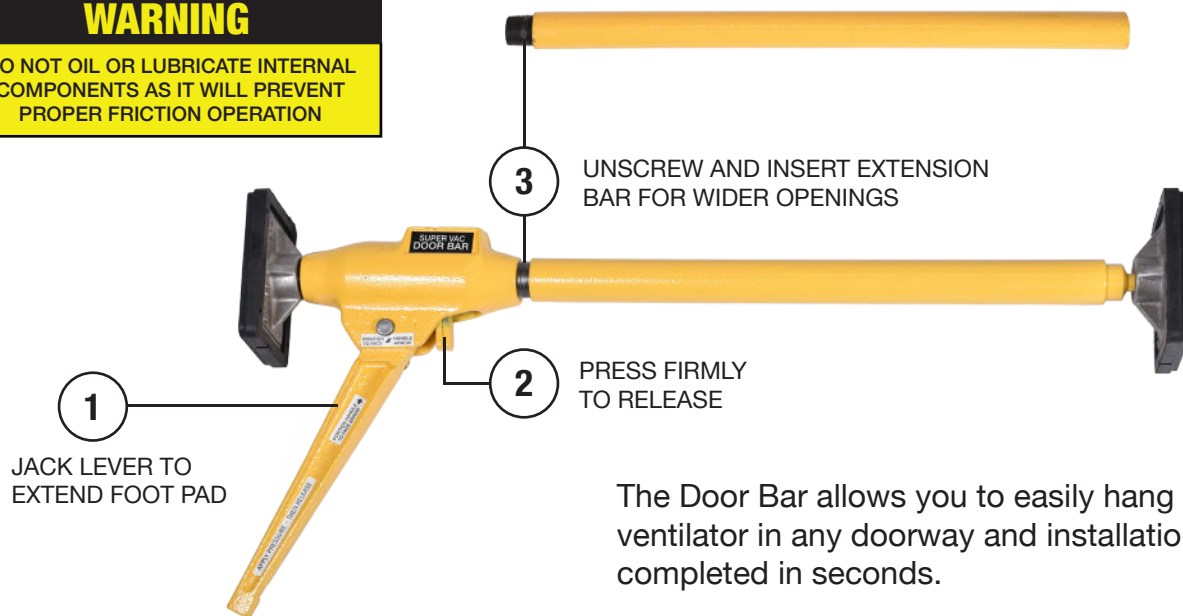

- 25 Inches (64 cm) long when collapsed. Adjusts to 39 inches (99 cm).
- Easy to transport - weighs only 11 lbs (5kg)
- Addition of extension bar allows for use in wider doorways. See image.
- Ratchet handle allows for fine adjustments to any position.
- Swivel rubber padded bar ends minimizes marring of jambs.
- Simple trigger mechanism releases unit.
- Rugged construction of aluminum and steel to withstand heavy use.
- Maintenance free.

Hangers, ordered separately, allow positioning of ventilator with Door Bar at desired height.

WARNING

DO NOT OIL OR LUBRICATE INTERNAL COMPONENTS AS IT WILL PREVENT PROPER FRICTION OPERATION

Door Bar is shipped partially assembled.

Install handle into body as shown by matching up arrows.

Secure with pin and cotter pin.
