

## BATTERY-POWERED CHAINSAW CONVERSION KIT

Super Vac's all-new Chainsaw Conversion Kit turns an ordinary 16" wood-cutting Makita, DeWalt, Milwaukee or Echo battery-powered chainsaw into the perfect RIT or overhaul saw for firefighter operations. Typically, battery-powered chainsaws are only ideal for cutting wood, but this kit equips the saw with a carbide-tipped chain capable of cutting through asphalt shingles, hurricane glass, roofing materials and more.\*

\* Heavier construction materials may cause chain wear.

### Kit Components

- 1 Carbide-Tipped Chain: (Dual-Raker or Single-Raker option)** Converts select battery-powered chain saws into a light-duty rescue saw capable of cutting through asphalt shingles, hurricane glass, roofing materials and more; easily sharpens with diamond equipment
- 2 Modified Bar:** Allows the wider chain gauge to operate with added room, putting less strain on the saw for repeat use; the bar is slotted to work with Super Vac's Quick Silver depth gauge
- 3 Optional Quick Silver Depth Gauge:** Prevents the blade from cutting too deep during roof ventilation

Component / Model No.	Weight	Materials	Battery-Powered Saw Compatibility
Chisel-E Chain / SV375-16 	6.4 oz 182 g	Single-Raker Chisel chain; carbide tipped (super grade for better impact resistance); loop for 16" bar, 3/8 x .050.	Makita: 18V X2 (36V) LXT Brushless Chainsaw DeWalt: FLEXVOLT Cordless Chainsaw Milwaukee: M18 Fuel Cordless Chainsaw Echo: Echo 58V Cordless Chainsaw
Chisel-X Chain / SV377-16 	6.5 oz 184 g	Dual-Raker Chisel chain; carbide tipped (super grade with extra raker to protect the cutting tooth); loop for 16" bar, 3/8 x .050.	
Bar / SV530-16 	22.3 oz 632 g	Flame-hardened rails to 60 Rockwell C; precision-honed groove and replaceable roller nose for smoother operation/longer life	
Depth Gauge (Optional) / SV780 	15.8 oz 448 g	Billet aluminum for lightweight strength; CNC machined for precision; open design prevents clogging of debris
